Committee report
made on the occasion of the completion of the competition for the occupation of
Scientific
Researcher Positions Degree ...

The competition was published on the Euraxess website, at the headquarters and on the Institute's website, and registrations ended on, o'clock.

Number of vacancies:, were approved for competition by the Decision of the Scientific Council of the Institute of Macromolecular Chemistry "Petru Poni", Iași in tag.

The competition commission appointed by Decision no. has the following composition:

President:

Members:

Secretary of the committee:

Registered candidates

..... candidates, as follows (*Table 1*):

Table 1. List of candidates registered on the topics offered for the competition

No. crt	Candidate's first name	Identification code of the candidate	Field
1
.....			

General data on the competition:

The competition was held according to Law 53/24.01.2003 (Labor Code), Law 183/2024 (Status of research, development and innovation personnel) and the Institute's Internal Regulations, which provide the minimum standards of ICMPP for the position of scientific researcher and the methodology for evaluating scientific activity.

The registered candidates meet the conditions provided by the regulations in force and have been declared eligible.

The competition consisted of two tests:

- (i) *the written test*, held on, with a weight of 70% of the final grade;
- (ii) *oral exam* held on in which only the candidates who obtained above the grade of 8.00 in the written test, with a weight of 30% of the final grade, participated.

(i) Evaluation of the written test

The written test lasted 3 hours (from up to).

The competition ticket involved the resolution of three subjects scored with different difficulties, scored with 3 points, 1 point being ex officio.

For each subject, each member of the commission established a score, the final score/subject being calculated as the arithmetic average of the scores awarded by each member of the commission.

$$PS_x = (PM_1 + PM_2 + PM_3 + PM_4 + PM_5) / 5$$

PS_x = Subject score 1, 2, 3 or 4; PM₁₋₅ = commission member score

The grade for the written test was calculated by summing the scores for each subject, to which a point was added ex officio.

$$N = PS_1 + PS_2 + PS_3 + PS_4 + 1$$

N = Note; PS_n = Subject score 1, 2, 3 or 4

Table 2. Candidates' grades for the written test

No. crt	Candidate's first name	Candidate identification code	Field	Score obtained
1
...				

The results of the written test were communicated to the candidates on, o'clock.

No appeals were filed with the Human Resources Payroll Service.

(ii) Evaluation of the oral test

At the oral test, a number of candidates who obtained at least 8.00 in the written test (see Table 2).

The evaluation of the oral test was expressed in grades from 1 to 10, making the arithmetic average of the grades assigned to the candidates by each of the members of the commission (Table 3).

Table 3. Candidates' grades for the oral test – interview

Crt. No.	Name and surname	Note
1
...		

The candidates' final grade (Table 4) was calculated with the ratio:

$$\text{Final grade} = \text{written test grade} * 0.7 + \text{oral test grade} * 0.3$$

Table 4. Classification of candidates according to the final grade

Crt. No.	Name and surname	Average grade of the written test	Average grade of the oral test	Final note
1
...				

Validation of results

The final results of the promotion contest were communicated to the candidates on

No appeals were filed with the Human Resources Payroll Service.

Based on the final grade obtained by the candidates, the commission **recommends hiring** the following candidates as scientific researchers:

1.
2.
-

The final report of the competition commission contains 4 pages; was drawn up in a single copy and will accompany the competition files submitted to the Scientific Council of ICMPP for validation.
