

Marius PRODAN

Auxiliary staff member

Affiliation: *Petru Poni Institute of Macromolecular Chemistry, Iasi, Romania*

Email: prodan.marius@icmpp.ro

PhD thesis topic: *Cyclodextrin derivatives for polymer-free electrospinning applications*,
Coordinator: Dr. Ing. Valeria HARABAGIU

Research topics

Synthesis and characterization of polymers and other organic compounds. Obtaining of microfiber materials through electrospinning and their characterization. Knowledge in ultraviolet-visible spectroscopy, Fourier-transform infrared spectroscopy, matrix-assisted laser desorption/ionization mass spectrometry (MALDI MS) and scanning electron microscopy.
