About Crowdhelix

Crowdhelix is a networking, cluster-building company involved in 40+ EU-funded projects in various research and innovation domains.

As a project partner, we support the consortium in achieving and accelerating the project's impact objectives through a powerful Helix Impact Model – a goal-oriented, virtual, interdisciplinary community hosted on the Crowdhelix technology platform.

Helix communities enhance the collaboration of different actors along the value chain of the most burning topics and technologies, allowing adaptation to different scientific and innovative fields, giving a boost to the different ecosystems in the open innovation landscape.

Talent Pass

MISSION

We aspire to help change the world for the better, for future generations, connecting great people and accelerating societal impact

MATCH-MAKING AND CLUSTERING

We aim to match-make and build clusters on a global scale - we have recently seen an increase in new members at Crowdhelix from Africa, Asia and New Zealand

FUTURE FUNDING OPPORTUNITIES

We aim to open funding opportunities internationally to global funding agencies, and ultimately pull funding opportunities through to our Helix communities

SHOWCASING INNOVATIONS

We aim to use our network and technology to profile and connect innovations to global end-users - accelerating impact

Impact Acceleration Approach

01

Helix Impact Model

Stakeholder analysis, Matchmaking and clustering, profiling and connecting innovation to global end-users using recommender engine

02

Science Communication and Commercial Dissemination

Social media, website, videos, open webinars, newsletters, tech update announcements, public relations, events

03

Events

Knowledge sharing and impact events

Driving Collaboration and Networking Through Helix Communities

A platform to connect with people, collaborate and create partnerships

A virtual community where organisations can subscribe and connect with other stakeholders

A tool to accelerate and promote the dissemination an EU funded project

A repository to publish and promote the Key Exploitable Results coming from projects

A platform for facilitating matchmaking and clustering activities

A tool to share funding opportunities, events, workshops, and vacancies

A tool for profiling and connecting innovation to global end-users using recommender engine

Helix Impact Model Roadmap

Phase 2 - Engagement

Strengthen and expand the network and the participation of stakeholders in the helix community (along the project value chain):

1. Science and innovation communications
2. Events (Internal and External)
3. Clustering Activities
4. Funding opportunities
5. Planning the audience engagement.
6. Results identification and dissemination (KERs)

Phase 3 - Impact and Foreground

Facilitate Impact and Foreground

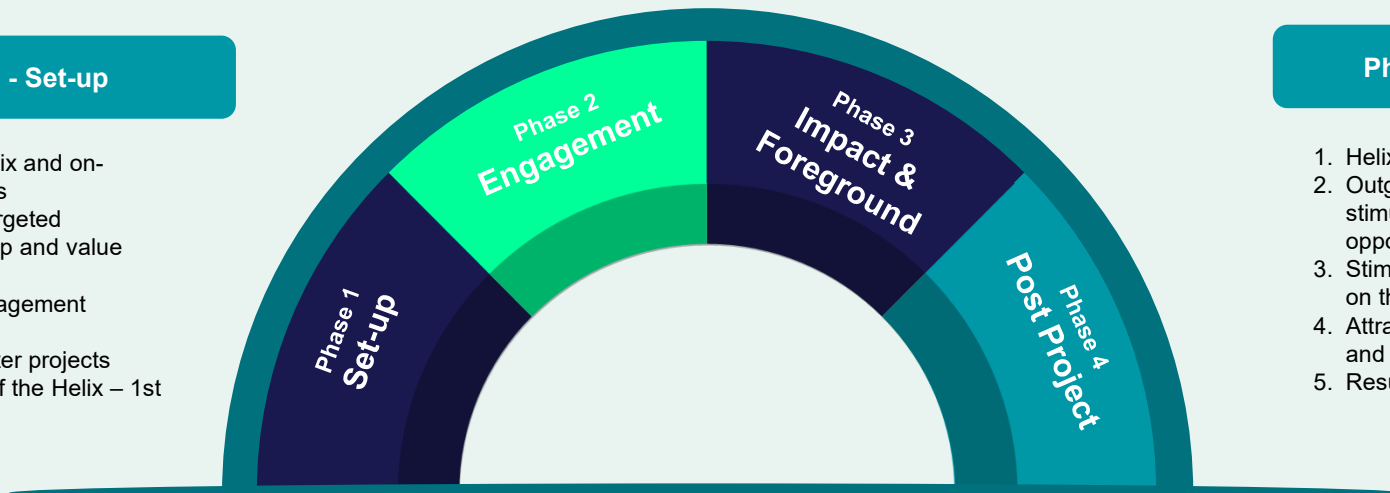

1. 2nd Helix Event to promote project's outputs
2. Technology Transfer and Commercialization (Collaborate for scale)
3. Seek Funding for further development
4. Policy Advocacy
5. Training and Capacity Building
6. Results dissemination (KERs)

Phase 1 - Set-up

1. Set-up of the Helix and on-boarding partners
2. Setting up the targeted stakeholders' map and value chain
3. Stakeholder engagement strategy
4. Connect with sister projects
5. Official Launch of the Helix – 1st Helix Event

Phase 4 - Post Project

1. Helix Sponsors/Leaders
2. Outgoing interaction in the Helix to stimulate new proposals and funding opportunities
3. Stimulate new scientific debate based on the follow-up of the project
4. Attract the attention of policymakers and investors
5. Results dissemination (KERs)

Impact of the Helix Impact Model

Accelerated progress

Leverage insights and resources to expedite the development of R&D projects

Expert Guidance and Support

Support from experienced professionals to navigate challenges and optimise outcomes

Global reach

Focused on impact and collaboration requirements. Accessing public and private funding and investment

Facilitated Collaboration

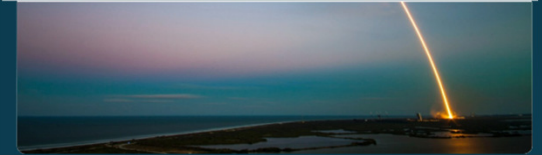

A streamlined collaboration process, members connect and partner with experts and organisations for mutual benefit

Project Impact

The platform increases project visibility, enabling a deep reach of potential collaborators, partners and funders

Increased Funding Opportunities

For potential funders, investors and sponsors
